

# Quiz

## Descriptive Statistics

1. Select the appropriate table for the following line of code:

1 point

```
1 df1=pd.DataFrame({'A':["a","b","a","c","a","c","b"]})
2 df1['A'].value_counts()
```

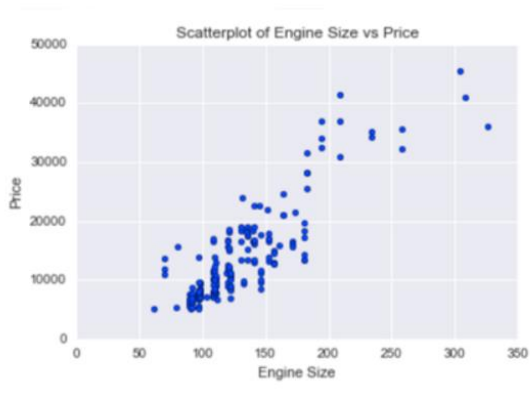

value	counts
a	3
b	2
c	2

value	counts
a	3
b	1
c	1

2. Consider the following scatter plot; what kind of relationship do the two variables have?

1 point

positive linear relationship

negative linear relationship
